

AWARD CEREMONY

BLUE LOTUS

Celebrating a half-decade of steadfast dedication, those who have journeyed with us for a minimum of five years have graced an impressive 30 sessions—from transformative counselling to empowering strides.

Their spirit is honored with the Blue Lotus Award, an emblem of rare beauty and resilience. Like the sapphire, a gem of profound value and stunning allure, they shine with an inner fire.

And as the lotus rises, pure and splendid, from the depths of murky waters, so have they flourished, deeply committed to their groups, psychoeducation, and special interests, blossoming against all odds with inspiration and indomitable positivity.

RED SUNRISE

With a remarkable commitment spanning seven years and at least 40 sessions of heartfelt engagement, we celebrate the embodiment of enduring devotion: the Red Sunrise.

The color red, a vibrant symbol of the ruby—resilient, precious, and second only to diamond in hardness—reflects their deep-seated strength. These rare gems, much like the rubies mined from the rich earth of Myanmar, embody a value that transcends material worth.

They are as treasured as the first light of daybreak, their positive impact on others mirroring the inspirational promise of the sunrise, renewing hope and igniting the skies with boundless warmth and possibility.

PINK STAR

Behold the Pink Star, a tribute to the rarest of champions whose light shines within Ain Society. Like the elusive pink diamond—coveted for its scarcity, hidden deep within the earth for eons—these individuals have offered a decade, gracing us with 50 sessions of unparalleled dedication.

To unearth such a gem requires a touch as enduring as diamond itself, signaling the extraordinary lengths they've gone to uplift and inspire. Sourced from the remote heart of Australia, the pink diamond's unique splendor mirrors the exceptional journey of our honorees.

With ten years of service, their outstanding contributions are as prized and celebrated as the most precious and extraordinary treasures of the natural world.
