Small-scale celebration for mothers

2015

Anugerah Ibu Tabah introduced

2024

AWARD renamed Anugerah Ibu Tabah (Resilient Mother), Halimah Yacob Challenge Shield

2025

Opened to Public
Opened to all mothers diagnosed with Cancer

Location of Event

The atmosphere during the Mother's Day event is warm and conducive. From the moment guests arrive, they are welcomed into a space that feels both comforting and thoughtfully prepared – like stepping into a quiet sanctuary filled with soft lighting, elegant details, and calming music in the background. The setting invites everyone to slow down, breathe, and truly enjoy the moment.

It is a space where mothers are celebrated not just for what they do, but for who they are – the heart of their families. It is a relaxing, meaningful experience that aims to leave guests feeling seen, valued, and deeply appreciated.

Why?

For mothers facing cancer, caring for their families remains a top priority, even as they navigate their own health battles. Many struggle with stepping back from their caregiving roles or losing their independence and mobility.

It is especially painful to see their families adjust without their usual support. Yet, these mothers show incredible strength, continuing to give love and make sacrifices despite the physical and emotional toll. On this special day, we honor them by giving a small but meaningful break from their daily challenges.

Who was the award named after?

In 2024, the event focused on only one award instead of multiple categories. We renamed our award Resilient Mother Award, Halimah Yacob Challenge Shield.

The renaming acknowledges Mdm Halimah's steadfast support for our cause and for womanhood, and her role as an exemplary figure within our community.
